

# Fatema Boxwala

My process is lateral and iterative. I research, collect, think and design best when I pursue multiple pathways.

I make with my hands first. I use a mixed media approach to design print and digital artifacts.

My right and left brain collaborate. I approach design from my background in ethnography and scientific research.

## Education

Bachelor of Fine Arts	GRAPHIC DESIGN	College for Creative Studies (CCS)	DETROIT	05/14
